

Synthetic Hospital CAD Research Unit
AMBULATORY OUTPATIENT CARDIOLOGY CONSULTATION NOTE
Cardiovascular Outpatient Clinic

Synthetic sample. Not a real patient.

Patient: SAMPLE, LAD ISCHEMIA (ISOLATED ANTERIOR) MRN: SYN-0002
DOB: 1979-01-15 (Age / Sex: 47y / Female) Report Date: 2026-03-15
Encounter: Ambulatory Outpatient Ref MD: Dr. S. Synthetic, MD

Demographics & Vital Signs

Age: 47 years Sex: Female Height: 165 cm
Weight: 75 kg Body mass index: 27.55 kg/m2 Function class: Class 0
Blood pressure: 120/74 mmHg Pulse rate: 90 bpm SpO2: 98% (Room air)

Past Medical History & Cardiovascular Risk Factors

Risk Factor / Comorbidity	Status	Clinical Details
Diabetes mellitus	No	No clinical history reported
Hypertension	No	No clinical history reported
Current smoker	No	No clinical history reported
Ex-smoker	No	No clinical history reported
Family history of CAD	No	No clinical history reported
Obesity	Yes	Documented active diagnosis
Chronic renal failure	No	No clinical history reported
Cerebrovascular accident	No	No clinical history reported
Airway disease	No	No clinical history reported
Thyroid disease	No	No clinical history reported
Congestive heart failure	No	No clinical history reported
Dyslipidemia	No	No clinical history reported

Cardiovascular Symptoms & Physical Examination

Symptom / Examination Sign	Status	Clinical Details
Typical chest pain	Yes	Present on current evaluation
Atypical chest pain	No	Absent on review of systems / exam
Non-anginal chest pain	No	Absent on review of systems / exam
Exertional chest pain	No	Absent on review of systems / exam
Low threshold angina	No	Absent on review of systems / exam
Dyspnea	No	Absent on review of systems / exam
Edema	No	Absent on review of systems / exam
Weak peripheral pulse	No	Absent on review of systems / exam
Lung rales	No	Absent on review of systems / exam
Systolic murmur	No	Absent on review of systems / exam
Diastolic murmur	No	Absent on review of systems / exam

Assessment & Clinical Plan

Impression: Patient evaluated for CAD stratification. Comprehensive assessment based on clinical presentation, hemodynamic profile, and non-invasive testing. Optimization of risk factor profile and follow-up as indicated.

Attending Physician: Dr. S. Synthetic, MD

Encounter Date: 2026-03-15
